

Glass Systems B105 Semi-Frameless Balustrades

Product Features

- This semi-frameless Balustrade system offers flexibility with a range of designs and combinations to meet various fixing applications.
- A strong modern design featuring square posts with surface-mounted, face fixed or grouted options of installation available.
- Suits internal and external Balustrades, Stairs, Pool Fences and Windbreaks.
- Custom Powder Coated colours are available to match your existing colour schemes or aluminium joinery.
- Options are available with or without handrails to maximise views or safety concerns.
- Suits 10mm or 12mm Toughened Safety Glass and pocket glazed for ease of installation and maintenance.

Balustrading

Surface Mounted or Face Fixed, Semi Frameless

- Retain the good looks of Frameless Glass Balustrading with the added security of aluminium supports.
- Available ex-stock in standard posts with adjustment for falls or custom manufactured full height.
- Custom sizes can be fabricated in-house as required, to meet any specific design criteria.

Pool Fencing

Surface Mounted or Face Fixed, Semi Frameless

- Ideal for mounting to the front of decks or where weather tightness may be an issue, including floating decks.
- Available ex-stock in standard posts with adjustment for falls.
- Custom sizes can be fabricated in-house, as required, to meet any specific design criteria.

Balustrading

Surface Mounted or Face Fixed, with Handrail

- All the features of surface mounted posts with the added security of an Oval Handrail section to provide safety and support.
- Available ex-stock in standard posts with adjustment for falls.
- The Oval Handrail combines with the posts for a soft, modern design.
- Custom sizes can be fabricated in-house, as required, to meet any specific design criteria.
- Handrails are recommended for decks over 5m from ground level.

Windbreaks and Privacy Screens

Surface Mounted or Face Fixed, Semi Frameless

- Provide privacy from neighbours through semi-frameless posts and combinations of toughened safety glass.
- Various options are available for providing Windbreaks where protection is required from the elements.
- Custom sizes can be manufactured in-house, as required, to meet any specific design criteria.
