

Glass Systems B125 Adjustable Discs

Product Features

- Manufactured from 316 grade Stainless Steel for a long service life.
- Fully adjustable for ease of installation, Fast Fix Anchors don't need to be packed out with washers to attain correct glass alignment.
- Additionally if required in the future through movement of timber, they can be easily adjusted to re-align glass panels without removing the glass.
- The unique base allows for ease of installation when fixing to concrete, steel or timber, without fixings needing to be mm perfect.
- Available in Face Fix or Concealed Fixed options to match customer design requirements.
